CLOUD SERVICES

Supporting cloud migration, cloud strategy, architecture, and cloud readiness assessments.

Cloud Migration

Our cloud migration services will assist your business to attain projected benefits through seamless transition to cloud-based applications and solutions.

Cloud Access Point (CAP)

We will provide your business with the administrative path to the cloud; the gathering of network infrastructure and risk management framework data necessary to complete the authorization to operate (ATO) packet for secure cloud access.

Cloud Service Implementation and Management

We will monitor and manage cloud environments; monitoring the utilization and take action to optimize your cloud cost and ensure significant savings; all while assisting our clients in maintaining their service-level agreements.
